

We would like to inform you that misleading SMS messages have been identified, which are being sent to mobile phones and falsely appear to originate from the company “CISCO”.

These messages are fraudulent (spam / phishing) and aim to steal personal and banking information and/or login credentials to Cisco eTrading.

How to stay safe:

- **Do not** reply to or follow any instructions included in such messages
- **Do not** click on links
- **Do not** share personal or banking information
- Use only the official CISCO website and communication channels

If you have any doubts about the authenticity of any message you may receive, please contact our Customer Service immediately at 22 121700.

Thank you for your trust and cooperation.
